

Resurrection

by

Randy C. Finch
(September 1994)

Soft tanned flesh presses hard beige plastic
Six score volts transforms to electric life-blood
Angstrom wide rivers begin to flow

Seeming chaos emerges organized
Phosphor emitted photons scan my eye
Rectangles and icons beg my attention

Soft tanned flesh presses hard beige switches
Mechano-electric rodent fills my hand
Allowing human contact with a silicon brain

My computer
Resurrected once again
